

NJORD Latvia is representing COFACE in the court case

NJORD is representing COFACE (Compagnie Francaise D'Assurance Pour Le Commerce Exterieur) in a court dispute against Joint-stock company "TRASTA KOMERCBANKA" in liquidation.

COFACE has denied the payment of the insurance compensation to "TRASTA KOMERCBANKA" due to numerous violations of the insurance contract. "TRASTA KOMERCBANKA" has challenged the refusal and the case is pending in the court of first instance.

The client is represented by senior associate Anna Kosinska supported by partner Sergei Petrov.

COFACE is an industry leader in credit insurance and risk management with over 70 years of expertise.

NJORD Latvia has a strong litigation practice covering various industries, but in particular IP, shipping, transport and insurance. With recent addition of senior associate Eduards Vaisla we now offer full litigation service covering civil, administrative and criminal law (white collar crimes). We are frequently recommended and hired exclusively as litigation specialists.
