

NJORD Latvia successfully represented Grovema bv in a court case

NJORD successfully represented Grovema bv, a seller of Liebherr parts and machines from the Netherlands, in a dispute with SIA “MARK INVEST A”.

The dispute concerns invoices for machines and parts that had been delivered but had not been paid for by SIA “MARK INVEST A”.

Since SIA “MARK INVEST A” hadn’t responded to a demand letter and did not to pay the invoices, Grovema bv instructed NJORD Law Firm to file a claim in court. Following our motion the court ruled to secure our claim.

After examination of the case the court decided in favor of our client. The defendant did not appeal and the judgement entered into force. The defendant will have to fully pay for the machines and parts they received as well as cover court expenses of our client.

The client was represented by senior associates Eduards Vaisla, Anna Kosinska and supported by partner Dmitri Kolesnikov.

NJORD Latvia has a strong litigation practice covering various industries, and in particular IP, shipping, transport and insurance. With the recent addition of senior associate Eduards Vaisla we now offer full litigation service covering civil, administrative and criminal law (white collar crimes). We are frequently recommended and hired exclusively as litigation specialists.
