

In June we organize a seminar on AI

On 16 June 2023, the Training Advisory Centre "Funditus" in cooperation with NJORD ZAB is organising a seminar/webinar on the current hot topic of artificial intelligence "ARTIFICIAL INTELLIGENCE AND ITS ROLE IN THE LAW."

The seminar will be led by one of the lawyers of the law firm NJORD and will focus on the current concept of artificial intelligence (AI) and its status in the Latvian legal system in relation to the problems of fundamental rights protection raised by AI, the potential risk of discrimination in the selection of data by AI systems, as well as data protection and various issues of the intellectual property law.

Lets meet in June!
