PROFILE

Pernille Kirk Østergaard is mainly engaged in compliance-related and regulatory matters within various sectors, including compliance in the public sector and corporate compliance.

She is particularly specialized in data protection related compliance, including in relation to the GDPR, transfer agreements to third countries, Binding Corporate Rules and other special regulation. In addition, Pernille advises on data protection and commercial challenges in connection with whistleblower schemes and their implementation in companies.

Further, Pernille has in-depth knowledge of the AML-area, both sector-specific and broadly, where she has assisted clients with risk management and compliance, establishment of risk assessments, policies, business procedures, processes, role descriptions, teaching, monitoring, implementation and control of compliance with AML-regulation.
